Your Reference
Our Reference EXHEAT Reference

TO WHOM IT MAY CONCERN

This letter is to confirm that we procured a significant number of Hazardous Area certified Electric Heaters, from EXHEAT LTD (UK) during the period 1997 to 2007.

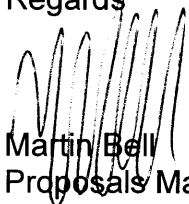

The heaters have primarily been used for hydrocarbon gas flow heating applications, many of which have had duties in excess of 500kW.

A list of the projects that incorporate electric heaters is attached

To the best of our knowledge these heaters have performed well and we have no hesitation in recommending the products and services offered by EXHEAT Ltd.

If you have any questions please do not hesitate to contact me

Regards

Martin Bell
Proposals Manager
